

The Cutlass™ Tactical Platform is a next-generation accessory system engineered for strength, adaptability, and rapid deployment. Designed and prototyped by engineers and field-tested for practical use, the system features four integrated Picatinny rails that allow operators to mount accessories on all sides of the platform for unmatched modularity.

The platform utilizes an open-muzzle architecture, eliminating a fixed compensator and enabling compatibility with threaded barrels, suppressors, dedicated compensators, and extended slide configurations. This design allows users to configure recoil management and muzzle devices according to mission requirements while maintaining full system compatibility.

Each unit is manufactured using matte black PETG reinforced with 20% chopped carbon fiber, producing a lightweight yet highly durable composite structure capable of withstanding demanding field conditions while maintaining a professional low-profile finish.

The system includes a multi-configuration proprietary holster platform designed for operational flexibility. The holster can be configured for hip carry, leg carry, or vehicle console mounting, allowing seamless transition between movement, transport, and deployment environments.

Key Features

- Quad-sided Picatinny rail system for accessory mounting
- Open-muzzle architecture supporting suppressors, threaded barrels, and standalone compensators
- Multi-position holster system (hip, leg, or vehicle console)
- Constructed from carbon fiber reinforced PETG composite
- Matte black tactical finish for low-visibility operation
- Lightweight yet highly durable engineered polymer construction
- Compatible with Glock 17, 19, 34, 45, 22, 23, and 35 (Gen 3–6)
- Designed and prototyped in the USA

Compatibility

The Cutlass platform is designed for Glock pistols equipped with the standard accessory rail and is compatible with:

- * Glock 17 (Gen 3–6)
- * Glock 19 (Gen 3–6)
- * Glock 34 (Gen 3–5)
- * Glock 45 (Gen 5–6)
- * Glock 22 (.40 S&W) (Gen 3–5)
- * Glock 23 (.40 S&W) (Gen 3–5)
- * Glock 35 (.40 S&W) (Gen 3–5)

Purpose-built for tactical professionals and serious enthusiasts, the Cutlass transforms compatible Glock platforms into fully modular systems capable of adapting to evolving operational demands.
